

LIBRARY

MANAGEMENT SYSTEM

INTRODUCTION

Netpro LMS is Ideal for your library. We understand that establishing and maintaining a library can be time consuming and expensive. NETPRO-LMS will help you use your time efficiently and productively when managing your collection. We've developed the software so it can be tailored to meet your needs, and priced to meet your budget.

As a librarian, you have a variety of tasks and responsibilities to manage. With NETPRO-LMS you can:

- Integrate cataloging, circulation, searching and reporting all into one easy-to-use software program.
- You don't have to be an expert librarian to use NETPRO-LMS our program includes all the features you need to get your library started and established.
- We listen to you! We regularly release updates to the software that contain improvements based on suggestions from our customers.

Our goal is to provide the best library automation software, and we know the best way to do that is to make NETPRO-LMS the ideal fit for you.

NETPRO-LMS will help you organize your library and provide a valuable service to your organization. It will enable you to make the library a success.

FEATURES

Benefits for Library staff

1. Ease of data entry and cataloguing with ISBN retrieval. Import a list of ISBN's (with up to date support)
2. Keep track of what is being checked out with efficient circulation features & restrictions, and weed out any unused items.
3. Enter your data from multiple locations with Volunteer Entry
4. Report listing of relevant resources for your library are easily created and enable you to keep track of the value of your items with inventory and value reports.
4. Create a backup of your database with a few easy steps.

Designed For all types of Libraries and Collection;

1. Manage any type of library Including: medical libraries, law, science, music, Government, correctional

institutions, and resource centers.

2. You can catalogue any type of item in your collection, not just Books or DVDs.
3. Tailor the program to include your own specific resource types and tailor the fields to match.
4. Indicate which classification system you would like to use ... or create your own!
5. Choose from a variety of reports including: circulation, inventory, value reports, and listing by title or subject.

FUNCTIONAL MODULES

Cataloging:

1. Allows for creation, storage, retrieval and management of bibliographic records and/or indexes.
2. Defines the record format used in the database and provides for authority control author, subject headings, etc.

Circulation:

1. Handles circulation activities such as: lending, return, renewal, and place on hold
2. Manages library materials - circulation type, location and status; patron database - patron type, profiles, privileges; and other transactions such as computation and payment of overdue fines, lost books, etc.

Acquisitions:

1. Automates the acquisition process - ordering, receiving, and claiming

materials from suppliers, and returns, and cancellations of materials.

2. Maintain statistics, and manages accounting activities.

Serials:

1. Manages placing, canceling, claiming of orders; returning defective, unwanted and unordered material; and accounting and statistical information.
2. Provides a system for recording issues and keeping track of undelivered issues by generating claim reports.
3. Permit serial ordering online

FUNCTIONAL MODULES

Interlibrary Loan Module:

1. Provides staff with an information management system for interlibrary loan transactions. This includes automatic monitoring of loans and accounts, making claims, putting holds on materials being borrowed, etc.
2. Can also monitor the library's transaction activities, e.g. the number of items borrowed by individual clients, from where, for whom, etc. This module is seldom required.

Add-on module:

Netpro's LMS offer additional functions and features as optional to the basic functions or as an integral part of a module. Examples are report generation, inventory, short loan transactions, import/export of records from/to MARC formats, Web OPAC and/or server services, and security systems linked to or integrated with the cataloging/circula-

tion module.

As a librarian, you have a variety of tasks and responsibilities to manage. With NETPRO-LMS you can:

1. Integrate cataloging, circulation, searching and reporting all into one easy-to-use software program.
 2. You don't have to be an expert librarian to use NETPRO-LMS our program includes all the features you need to get your library started and established.
 3. We listen to you! We regularly release updates to the software that contain improvements based on suggestions from our customers.
 4. Our goal is to provide the best library automation software, and we know the best way to do that is to make NETPRO-LMS the ideal fit for you.
- NETPRO-LMS will help you organize your library and provide a valuable service to your organization. It will enable you to make the library a success.
